

21 October 2020

Quarterly report for the period ending 30 September 2020

Bass Oil (ASX:BAS) is an Australian-listed Indonesian oil producer with a 55% Operator interest in the Tangai-Sukananti licence in the prolific South Sumatra Basin. Bass is committed to creating and maximizing value, leveraging its competitive strengths; its team, operating capability, reputation, and relationships in Indonesia.

HIGHLIGHTS

- Production for the September quarter averaged 642 barrels of oil per day (bopd) JV share down 9% from the June quarter
- Net oil production for September quarter totalled 32,481 barrels¹
- Net oil sales for September quarter totalled 32,727 barrels¹
- Net entitlement oil to Bass for the September quarter totalled 18,314 barrels down 34% generating sales revenue of US\$0.69m
- Oil price received averaged US\$36.71 for the quarter up 47%
- Artificial lift, in the form of a sucker rod pump installed in the Bunian 5 well
- Bass has taken steps to mitigate against the effect of COVID-19 and depressed oil prices and to date production at Tangai-Sukananti remains largely unaffected
- Field operating costs have been reduced to ~US\$20 per barrel and the field continues to generate a positive cash contribution

Comparative Performance:

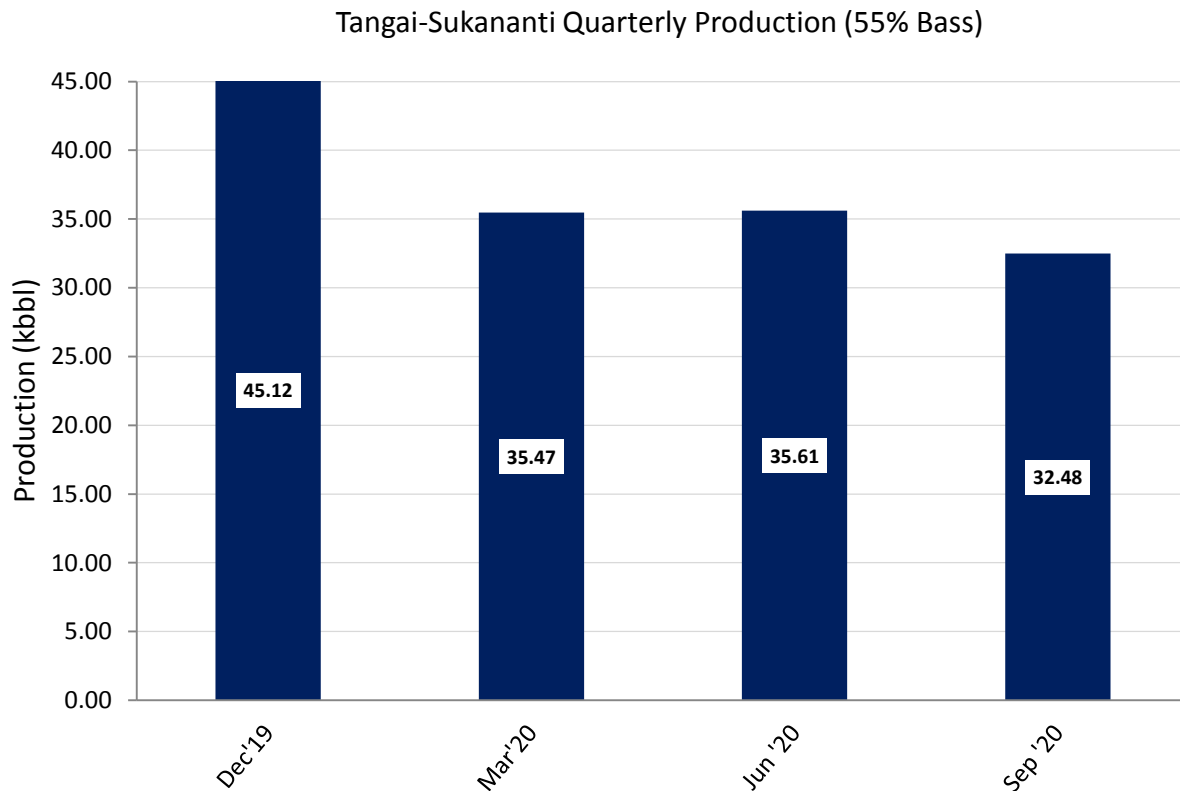

Key Performance Metrics	Sep Qtr Q3 FY20	Jun Qtr Q2 FY20	Qtr on Qtr Change	Sep Qtr Q3 FY19	Yr on yr Change
Net Production ¹ (mdbl)	32.48	35.61	-8.8%	36.18	-10.2%
Net Oil Sales ¹ (mdbl)	32.73	35.69	-8.3%	36.73	-10.9%
Net Entitlement to Bass (mdbl)	18.31	27.63	-33.7%	22.26	-17.7%
Sales Revenue (US\$M)	0.69	0.68	1.5%	1.33	-48.1%
Average Realised Oil Price	36.71	24.90	47.4%	59.33	-38.1%
Cash (US\$M)	0.20	0.26	-23.1%	0.27	-25.9%

Note 1: Net Production and Oil Sales are reported at 55% of Gross Production and Oil Sales for consistency and excludes the deduction of Domestic Market Obligation (DMO)

Bass Oil Managing Director, Mr Tino Guglielmo commented:

“During the September quarter the global fiscal environment has stabilised but still remains in a period of uncertainty as a result of the COVID-19 pandemic. Bass has responded quickly, taking measures to ensure the health and safety of its employees and insulate the company from weaker financial and oil markets. The company is operating low cost assets, has no debt nor significant financial commitments and is well positioned to weather the current depressed state of the global energy industry.”

Field Performance:

Production for the quarter was 32,481 barrels of oil (55% basis), down 8.8% from the previous quarter. Quarterly oil sales were 32,727 barrels of oil net to Bass, down 8.3% from the previous quarter. The net entitlement oil to Bass was 18,314 barrels of oil for the September quarter after Domestic Market Obligation (DMO), down 34% reflecting the effects of the increased oil price on cost recoveries and an active work program carried out in the March quarter.

Production performance during the quarter was affected by the removal of the Bunian 5 well from production to allow the installation of a sucker rod pump. The well was offline for approximately 45 days and has since been returned to production with production levels expected to return to around 700 bopd.

Field Development:

The static & dynamic reservoir models for the Bunian field have been updated integrating the results from the Bunian 5 well. This update includes the results of a passive seismic and acoustic impedance studies which have improved the understanding of the subsurface reservoir distribution. The study has identified a number of potential drilling locations which will be matured for a future drilling program.

Corporate:

Cash Position

As at 30 September 2020, Bass cash reserves were US\$0.20m. Cash reserves decreased from the previous quarter due to the implementation of a limited capital program which included the installation of the Bunian 5 pump and further geological & field studies following the 2019 drilling program.

The Company realised a 47% increase in the average oil price for the September quarter to US\$36.71. Bass receives ICP crude pricing, linked to the benchmark Brent crude which trades at a premium to West Texas Intermediate (WTI) crude oil. The company has no oil hedges in place.

The Company reacted quickly to the reduction in oil prices and as such the business continues to generate positive cash contributions with total operating costs at ~US\$20 per barrel. The Company is well insulated from the current volatility in the global oil price.

Business Development:

Bass is reviewing a number of onshore Indonesian and other opportunities outside of Indonesia as the fiscal outlook for the energy industry has stabilised and is improving. The Company has not entered into any material contracts or commitments that impact it during this period.

The Company will update the market on developments as appropriate.

About Bass Oil Limited:

Bass Oil Limited (ASX:BAS) (www.bassoil.com.au) is an ASX-listed exploration and production company featuring low cost onshore oil production in Indonesia and a management and Board team with a proven track record in delivering shareholder value. Bass has realigned its corporate strategy following the landmark acquisition of a 55% interest in the Tangai-Sukananti KSO producing assets located in the prolific oil & gas region of South Sumatra, Indonesia.

As at September 2020, the Tangai-Sukananti KSO was producing on average 617 bopd from 4 wells (JV share). Bass reports Net Entitlement 2P Oil Reserves of 0.567 million. Bass is building towards a substantial onshore Indonesian oil & gas business with a clear focus on executing opportunities in South Sumatra as they present. Bass has a strong and committed shareholder base with Board and management holding in excess of 16% of issued capital.

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
